CAREER OBJECTIVE

Aspiring Full Stack Developer with a strong foundation in C++ problem-solving and MERN Stack development. Skilled in building responsive and scalable web applications, designing RESTful APIs, and implementing efficient backend solutions with a focus on maintainability and performance. Possess a good understanding of Data Structures and Algorithms, DBMS, OOP, Operating Systems, and Computer Networks, with hands-on experience in developing real-world projects. Familiar with Agile methodology, Git version control, API development, and software development best practices. Passionate about learning modern technologies and building robust, user-friendly applications.

EDUCATION

Pranveer Singh Institute of Technology

B.Tech Computer Science Engineering; Percentage: 69.31%

Kanpur, India

Oct 2023 – July 2027

Sacred Heart Higher Secondary School

Senior Secondary Education; Percentage: 65%

Sitapur, India

April 2021 – August 2022

Sacred Heart Higher Secondary School

High School; Percentage: 75%

Sitapur, India

April 2019 – March 2020

SKILLS

Technical Skills:

Languages: Python, JavaScript, C++

Frontend: React.js, HTML, CSS

Backend: Node.js, Express.js, RESTful APIs, API Development

Databases: MongoDB, SQL (Basic)

Libraries: Pandas, NumPy, Scikit-learn

Core Subjects: DSA, DBMS, Operating Systems, OOP, Computer Networks

Tools & Technologies: Git, GitHub, VS Code, Postman

Concepts: Responsive Web Applications, Scalable Web Applications, RESTful API Design, Agile Methodology, Software Development Life Cycle, Problem Solving

Soft Skills:

Communication, Teamwork, Adaptability, Quick Learner, Collaboration

PROJECTS

- **She AI – AI-Based Women Health Assistant** Ongoing
Python, Flask, Machine Learning
 - Developed an AI-driven health assistant featuring menstrual cycle tracking, mood analysis, and PCOS risk prediction using user-input data for personalized insights.
 - Integrated an AI chatbot, menopause prediction, breast cancer awareness modules, and a multi-language interface with a user-friendly UI/UX for accessibility.
- **CalmIQ – AI-Assisted Mental Wellness Platform** [Link](#) Nov 2024 – March 2025
HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, RESTful APIs, Git
 - Built an AI-powered mental wellness platform that helps users track their mood, access guided meditation resources, and receive personalized support through an intelligent chatbot.
 - Developed a responsive web application using HTML, CSS, and JavaScript, integrating interactive dashboards and personalized wellness recommendations to enhance user engagement and self-care awareness.
 - Designed and implemented RESTful APIs for backend services, ensuring scalability and maintainability while utilizing Git-based version control and API testing with Postman.
 - Built responsive user interfaces and optimized backend functionality to deliver a smooth and user-friendly experience.
- **CinMatchAI** Dec 2023 – Jan 2024
Python, Pandas, NumPy, Scikit-learn
 - Built an AI-powered movie recommendation system using machine learning techniques to provide personalized content suggestions based on user preferences.
 - Implemented data preprocessing, similarity algorithms, and an intuitive interface to enhance user experience and recommendation accuracy.

ACHIEVEMENTS

- Solved 100+ coding problems on GeeksforGeeks, LeetCode, and HackerRank.
- Demonstrated strong adaptability by working across diverse technologies including C++, JavaScript, and AI/ML concepts.
- Developed and successfully deployed multiple academic projects, showcasing consistency in practical learning and implementation.

CERTIFICATIONS

- Oracle Cloud Infrastructure Foundations Associate – Oracle 13 Sept 2025
- Tata Crucible Campus Quiz 2025 – Certificate of Participation [Link](#) 01 April 2025
- Generative AI Essentials – TCS iON (AI for All Program) [Link](#) 03 May 2026
